

*The New Mexico Jewish Historical Society presents*

***“DNA, GENETICS and GENEALOGY: WHAT IT MEANS AND FINDING NEW MEXICO FAMILY CONNECTIONS”***

*Bennett Greenspan, president of Family Tree, will share his genetic expertise for novice/experienced genealogists and DNA fans. Bennett has discovered a personal connection to New Mexico that should be interesting to all participants, including hispanics. Participants are encouraged to attend both sessions.*

***WHEN: February 28, 2016***

*10:00 a.m.-11:30 a.m. The morning session introduces exploring (paternal) Y DNA, (maternal) Mt DNA, and (five generations of maternal/paternal) Autosomal Testing. Greenspan will share New Mexico Crypto-Jewish DNA information and his New Mexico family links.*

***11:30- 1:30 Lunch: Box Lunch available for purchase (Pre-Order)***

*1:30- 2:45 p.m. this session provides A global historical foundation of male/female human migration from Africa. Important archaeological and genetic evidence of modern humans will be discussed.*

***Where: JCC Auditorium, Albuquerque***
