Pueblo, Oct 12th, 1878

Dear cousin Luisa &

cousin Susie,

I received the announce-ment of your engagement
this morning, to which
I accept with hearty con-
gratulations and best
wishes. May you always
be as happy as you are
cnow. Dear Luisa, don't
forget your promise to
do as you said about the
kiss I told you. Do you
think you could give
your darling a kiss for
me? If it were down there
I would do that just as
quick.

Do you think dear Luisa
would stand that? but if
she can't be done there
you will have to take my
place and kiss your darling
for me. Well dear cousin
Susie, for now I take the
liberty to call you that way
you have our hearty wel-
come as a member to our
family and I am only say
I can't be down there with
you all, to tell you by
mouth, what I have to say,
but as that can't be you will
have to be contented with
the few lines, for this times and hope
you will favor me, with a photo
of each of you, real soon, I will
with best wishes from us all and
am as ever your loving
cousins

Messrs. Herzheim, Liberty & Co.

My dear nephew Moses,

I hope you arrived well & hearty in Liberty. I found everything in the best of order there. As you can imagine I feel by yourself that we missed you very much. I will send you a packet in a day or two which your name is not mentioned by one or the other of the family, until you yourself will come up again, I just can't tell everything what we have to say to you personelly.

My best regards to Mr. Herzheim. Samy wrote me last night, he has to pay off some hands, if he would have held me how much it was, I would have send them the money, but he didn't, so I beg of you please accept the orders of Samy and let me know how much it is and I will send you checks or you can send the money who bring the orders to Joe Coleman to Fort Smeier and he will pay the mess there.

Reaping you will do me this favor and with best regards to yourself & your brother.

Your affectionate 

To Coleman

Best regards of everybody of the family.

Dear Dorothy,

I have received your various communications and, of course, you know that business must be met as they come up and, of course, since you are just starting out, you have these things to overcome.

Yes, you asked if I am still endeavoring to improve the hearing aids. I am working with Baylor University here as well as some people in Israel.

Please do not hesitate to call to my attention anything that might come across your desk that would be helpful. I do wish you success in your new venture and if I can be of any help, please do not hesitate to call.

Please, if you wish, you can call me collect if there is something that you wish to tell me.

Again, Happy New Year to you and Dave.

Love,

A. Herzstein

Dear Dorothy,  

I received your letter and on one hand I am surprised and on the other hand I am not surprised at all; because this is all material of hard of hearing problems that you had for so long. But, anyhow, I wish you the best of luck in your ventures.

If you run across something that is better than normal hearing aids, I wish you would let me know because I am having more problems hearing as time progresses.

So, I wish you the best of luck in your new venture and I have no question in my mind that you will make yourself a good name for the trade in the market.

With best regards and have a Merry Christmas and a Happy New Year.

Love,

THE HANDICAP NO ONE SEES©
We are a remarkable and unique group of people! We are all ages, sizes, genders, and colors. We are not deaf, but cannot hear as well as we were once able. We have challenged the fear and isolation that has held us back from being integrated into today's society.

We have not and will not give into the burden of unhappiness, desolation, or the tears of despair. We take pride in having the courage to accept ourselves as we are and strive to be the best we can be.

We are a support group vitally interested in others who are hard of hearing and to assist them in finding solutions to their needs. No factor, such as age, has any relation in recognizing the variety of problems that exist and we seek to bring people together for their mutual benefit.

We work outside the group to increase understanding, awareness, acceptance and complete integration in the home, workplace and throughout the community. We find sources for aid and support in all fields of endeavor.

We need and require basic rights in relation to our condition. We take upon ourselves to see that we are not denied the rights to which we are entitled.

We therefore, not only need, but insist upon support, patience, and understanding. We are your family, your friends, your neighbors, your co-workers, your customers, and your patients.

We are not disabled - We are hearing challenged. There are over twenty four million of us, two million of which are totally deaf. Twenty two million people of all ages who have a "disability" you cannot see, and most times you are not aware of. We are constantly under a great deal of stress while attempting to cope with daily living. We deal with fear, depression, anger, and frustration. These are some of the situations we deal with every day. Dorothy B. Shipman - May 1, 1993
